Oh my God
This town, it feels like a headache
And all the words inside my mouth won't come through.
I've got this pain in my head that I can't shake
When I remind myself I can't get to you.

And it rained all day
And I figured it out I'm not the person that I used to be
Washed away
Please someone make me okay
Because I'm feeling like I might...

Take today and make my way
Through the towns, the streets, the pouring rain
'Cause some days,
It seems like the clouds won't stay away.

I watched you change with the seasons
I wrote you letters but I forgot to mention that
I'm a wreck, I'm a mess, you're a stranger.
Watch your face fade away
Now I'm stuck here

Take today and make my way
Through the towns, the streets, the pouring rain
'Cause some days,
It seems like the clouds won't stay away.

She said,
"Turn your back 'cause you'll never understand."
I can't get through
I can't get through to you
But the silence and the shaking of your hands
Says differently to me

You watched me wait on the steps of your house
I stood outside, you refused to come out
And honestly, this is making me sick.

All this time
I tried to hide

The truth inside
But this is making me sick.
This is making me sick.

Take today and make my way
Through the towns, the streets, the pouring rain
'Cause some days,
It seems like the clouds won't stay away.

She said,
"Turn your back cause you'll never understand."
I can't get through
I can't get through to you
But the silence and the shaking of your hands
Says differently to me

Take today and make my way
Through the towns, the streets, the pouring rain
'Cause some days,
It seems like the clouds won't stay away.

Stay away

Some days, it seems like the clouds won't stay away
