When you stepped inside my life
I knew you were the only one
So you gotta stay with me now
Every day, every day of my days
And you have to care for me
And you'll have to keep me satisfied

Pretty Liza, keep me smiling
Like a fire in the night
Pretty Liza, keep me smiling
Keep on walking by my side

Any time you glance at me
I can feel the warm touch of your eyes
Any time you think of me
I know your thoughts deep down inside
Any time you walk my way
I feel comin' down that lonesome road

Pretty Liza, keep me smiling
Like a fire in the night
Pretty Liza, keep me smiling
Keep on walking by my side

Pretty Liza keep me smiling
Like a fire in the night
Pretty Liza keep me smiling
Keep on walking by my side
