I don't want to look like you
Greasy hair and ugly too
I just want to live in peace
To lie in bed and stay asleep

I don't need your company
[Incomprehensible]
I've no time to even whine
So don't come up and offer man

I can do without you
I've come this far on my own
I don't need any helping hand
'Cause I'm, I'm a man

I don't want to look like you
Greasy hair and ugly too
I just want to live in peace
To lie in bed and stay asleep

I don't need your company
[Incomprehensible]
I've no time to even whine
So don't come up and offer man
