Inconvenient time for silence in abundance
I'll just leave it here to watch your disappearance
Delighted, excited with all that's thought-provoking
Embarrassed for me but not for what I'll be

I'll be in time this time
The thing is vile
The taste of bile
Define the taste of vile
The thing is bile

False unhappiness unfolds cruel intentions
A by-product of me I know I didn't mention
Invite me and tie me up no interference
Embarrassed for me but not when I'm not free

I'll be in time this time
the thing is vile
the taste of bile
Define the taste of vile
the thing is bile

(no, no, no)

Pure disease like homophobia
Will swallow us alive
Let us play and make me dirty
I'm unclean, you think it's vile
It's the mystery in lies
I'm unclean, you think it's vile
And it's way to clear to deny
