

## Vashti Bunyan "Window Over The Bay"

I wish, I had a window over the bay  
And a black horse grazing on the green all day  
I wish, I had a well to draw my water from  
And a warm log fire for when the summer is gone

I wish, I had a window over the bay  
And a flock of white sheep to watch from where I lay  
I wish, I had a little boat bobbing on the deep  
And a big wooden table all laid out for tea

I wish, I had a window over the bay  
And a dreamy eyed cow to fill my milking pail  
I wish, I had a cockerel to raise me at dawn
