When I was a kid I used to play with mud
Happiness was giving my dog a hug
Water on a hot day
Oh watching lovers fly away
That was then this is now
Have I grown up?
It seems I changed somehow
I've seen too much
Get on your Harleys get
Your tattoo's shaded by this life that you choose
Get on each other get
Your drugs you're jaded are it ever enough?
Cause when I was a kid everyone was nice
And everything I had I could sacrifice
Money grew on trees
Oh what are lovers and bees?
That was then this is now
Have I grown up?
It seems I changed somehow
I've seen too much
Get on your Harleys get
Your tattoo's shaded by this life that you choose
Get on each other get
Your drugs you're jaded are it ever enough?
That was then this is now
Have I grown up?
It seems I changed somehow
I've seen too much
Get on your Harleys get
Your tattoo's shaded by this life that you choose
Get on each other get
Your drugs you're jaded are it ever enough?
