We are all around you  
Our desire sure is true  
Our job is to re-create you  
You ain't allowed to be you

Trendsetter  
Ouh  
Trendsetter

They tell you what to wear and who you should want to  
be dating  
They tell you what to like and all the stuff you should be  
hating  
They need kids to feel like crap to help support the  
corporations  
But it doesn't add up according to my calculations

5-3-1-8-0-0-8  
Flip it Upside down when you calculate  
5-3-1-8-0-0-8  
The man's main plans to manipulate  
You can choose not to participate  
5-3-1-8-0-0-8  
We do our magic, you do yours  
But you think you've done it on your own  
The truth is out, it's not really you  
It's not really you

Ouh  
Trendsetter  
That's right

They say you are a loser if their name's not on your  
clothes  
They say that you'll have no friends and that you'll  
always be alone  
They will make a lot more money if a bunch of little  
clones  
Are free walking advertisements for the companies  
they own  
Every where's the average face of the corporate model

They're just quirks that get you hooked when they put  
sugar in you baby bottle  
They want you to want to be something you can't attain  
Offer you solutions but they'll really make you pay  
They tell you what to wear and who you should want to  
be dating  
They tell you what to like and all the stuff you should be  
hating  
They need kids to feel like crap to help support the  
corporations  
It doesn't add up according to my calculations
