"Bruise"

My love for you is like the sun that shines
My love for you is like the sun that shines

Don't repent to a bruise
He says that he still loves you tell me why does he hate
you

Don't repent to a bruise
He says that he still loves you tell me why does he hate
you

I'd never be so cold to you
I'd never be so cold to you
Yeah

My love for you is like the sun that shines
My love for you is like the sun that shines

Don't repent to a bruise
He says that he still loves you tell me why does he hit
you

He says that he still loves you tell me why does he hit
you

I'd never be so cold to you
I'd never be so cold to you
Baby
