

Vast "I Thought by Now"

Visit "[I Thought by Now](#)" on MotoLyrics.com

I hear they're building casinos
A few miles from my old house
I think I'll take all my money
See if I can figure it out
So I sold my guitar
It's no use to me
If I can't be a star
Well I will be the next best thing
I thought by now that I would be a king and you'd be my
queen
I thought by now the world would have stopped just to
notice me
Maybe I'll join the navy
Get sent to attack
Why would I fight for a country that doesn't even have
my back
So I sold my car
It's no use to me
Wherever you go there you are
And you aren't with me
I thought by now that I would be a king and you'd be my
queen
I thought by now the world would have stopped just to
notice me
I thought by now that I would be a king and you'd be my
queen
I thought by now the world would have stopped just to
notice me
