"Lift Me Up"

If you listen to my red guitar
You know that I will take you far
I've been waiting for a miracle
Hoping love will come my way

Lift me up (x4)

I have a thousand friends I've never met
All I think about is you
I can change my feelings with a pill
But those feelings won't be true

Lift me up (x4)

Every person in the world is shit
Every person is a liar
Lately nothing makes me give a fuck
Maybe you could lift me up

Lift me up (x4)
