

Vast "What Else Do I Need"

Visit "[What Else Do I Need](#)" on MotoLyrics.com

I don't mind that I have come back here again
In a place so far away from normal life
They are racing to a prison, they will never leave
Worshipping a system, I just don't believe

I could stay right here
And never ever leave
What else do I need

I know that you don't like me, that's alright today
I love you but you bore me, don't fuck up my day

'Cause I could stay right here
And never ever leave
What else do I need

I could stay right here
And never ever leave
What else do I need

People worry that I don't do anything
I think they really wonder why I'm not like them
They are racing to a prison, they will never leave
Worshipping a system, I just don't believe

'Cause I could stay right here
And never ever leave
What else do I need

I could stay right here
And never ever leave
What else do I need

What else do I need
What else do I need
Yeah, what else do I need
What else do I need
