### "Where It Never Rains"

When I touch your skin  
A window arrives  
And I go outside

I see rolling hills  
Love has arrived  
I should go outside

We're going where it never rains  
Into another place  
All the love I found in you  
I'm taking with me too

This is the world they left to us

We're going where it never rains  
Into another place  
All the love I found in you  
I'm taking with me too

This is the world they left to us  
This is the world they left to us

We're going where it never rains  
Into another place  
All the love I found in you  
I'm taking with me too

This is the world they left to us  
The only world they left to us

The only world they left to us
