Outside the world is a cool shade of green  
The grass and the trees are a sight to be seen  
The sheep and the cows are munching away  
Grass in their tummies at the end of the day  
Grass in their tummies at the end of the day

A-and it's  
Green green green, green all around  
The leaves on the trees, the grass on the ground  
Green green green, green all around  
The leaves on the trees, the grass on the ground

Some people never, never go out to play  
They sit watching telly for the whole of the day  
They never climb a tree or go for a ride  
They stay in the house and they never go outside  
They stay in the house and they never go outside

To where it's  
Green green green, green all around  
The leaves on the trees, the grass on the ground  
Green green green, green all around  
The leaves on the trees, the grass on the ground

It's nice to play with playdough, it's nice to play with  
trains  
Or even watch a video when it's pouring with rain  
It's nice to play with lego when the weather's not so fine  
But it's nice to go outside when the sun starts to shine  
It's nice to go outside when the sun starts to shine

To where it's  
Green green green, green all around  
The leaves on the trees, the grass on the ground  
Green green green, green all around  
The leaves on the trees, the grass on the ground  
Green green green, green all around  
The leaves on the trees, the grass on the ground  
Green green green, green all around  
The leaves on the trees, the grass on the ground  
The leaves on the trees, the grass on the ground

The leaves on the trees, the grass on the ground...
