"Angels fly"

Visit "[Angels fly](#)" on MotoLyrics.com

Do you ever have a day when you wish that you could
be someone else
And every word you say, well you, wish that could take
back and keep all to yourself
And nobody knows you
Who do you turn to, who do you turn to

You say it's an open door
I say it's a new direction
This is what you've been praying for
Well, you constantly thought that you needed
protection
Needed protection.
But you needed redeeming
Now who do you turn to, who do you turn to

Chorus:
I turn to you
You turn to me
Don't take it so hard
Angels fly for free

Do you ever have a day
When you're not this difficult on yourself
No matter what they say
Well, you never have to change for anyone else
Cause God made you perfect just the way you are

(Chorus)

Gotta let it lift you up
Gotta let it lift you up

Don't take it so hard
Angels fly for free
