You walk in the room
Your baby blues they talk to me
I still see that you still have this heart of mine
Under lock and key

Chorus:
Somebody help me
Tell me it's wrong
Cause I'm one step closer
To too far gone

Rain it starts to pour down
These thoughts they come round
Like a hurricane
When fate calls there's nothing you can do
Cause you can't choose love
Baby it chooses you

(Chorus)

Everybody's looking for someone
To make them feel complete
I searched the whole wide world over
Baby you're the one for me

(Chorus)
