i'm looking out for you
are you looking out for me?
are you hoping that i'll be around?

i'm walking by your place
i need a familiar face
i'm hoping that you'll be around
it didn't take much to tell
that i shouldn't have rung your bell
you were probably home
and looking down

CHORUS

i'm still singin'
these are the words that i write for you
i'm still swingin'
'though i get lost in this fight for you

i thought we could have it all
'cause it didn't take much to fall
now we're hanging from the edge of it all
well i'm thinking of letting go
but there's something i need to know
will you be there for me when i fall?

i'm still singin'
theses are the words that i write for you
i'm still swingin'
'though i get lost in this fight....

CHORUS
