# "Happiness Is Lonely"

Visit "[Happiness Is Lonely](#)" on MotoLyrics.com

I know  
I know  
Happiness is lonely

Come on  
Come on  
Such a laugh to be with me

I go along  
I go along  
How the f\*ck do I do it?

OK  
OK  
Happiness is lonely

I heard a noise  
In the cafe  
I broke my nose  
But there's no blood  
The car won't start  
On a hill  
And picture me  
In the future

I heard a noise  
Inside my chest  
I felt for the switch to turn it off  
The brilliant thing is  
The brilliant thing is  
I made the future now  
I made the future now

I heard a noise  
Inside my chest  
I felt for the switch to turn it off  
The brilliant thing is  
The brilliant thing is  
I made the future now  
I made the future now

Who knows  
Who knows  
Happiness is lonely  
Come on  
Come in  
I can stall for a minute  
Wait here  
Right here  
I wonder if I will feel it  
OK  
OK  
Happiness is lonely

I heard a noise  
In the cafe  
I broke my nose  
But there's no blood  
The car wont start  
On a hill  
And picture me  
In the future

I heard a noise  
Inside my chest  
I felt for the switch to turn it off  
The brilliant thing is  
The brilliant thing is  
I made the future now  
I made the future now

I heard a noise  
Inside my chest  
I felt for the switch to turn it off  
The brilliant thing is  
The brilliant thing is  
I made the future now  
I made the future now
