Go ahead have the apple off the tree  
Go ahead and smoke inside it doesn't bother me  
Go ahead and be sick on the front lawn  
Go ahead and sink to the bottom of the sea

Into the fall  
Into the clear  
Into the sun  
Into the lead  
Into the road  
Into the flood  
Into the dust  
Into my ears

Go ahead turn your back on the community  
Go ahead watch the void inside you disappearing  
Go ahead be the man you never thought you could be  
Go ahead and sink to the bottom of the sea
