Every night she stares at me,
Watering flowers on her knees,
Every night she plays with me,
Touching gently

Swimming in my fever,
Your father was a bear
Swimming in my fever,
Your father was a bear

Every night we dance in bliss,
Trembling feelings touch the leaves
Every night we dance in trees,
Ra ra ra ra ra ra

Swimming in my fever,
Your father was a bear
Swimming in my fever,
Your father was a bear
Swimming in my fever,
Your father was a bear

Fear with colored eyes
Fear with colored eyes
Fear with colored eyes
Fear with colored eyes

Swimming in my fever,
Your father was a bear

Fear with colored eyes
Fear with colored eyes
Fear with colored eyes
