Place your heart in mine
The pain will float
My hands are broken, my eyes are tired

You are the horse that I'll never ride
You are the horse that I'll never ride
I waste my time, I won't get it back
Hole in my pride
You are the horse that I'll never ride

Place your legs in fire
The pain will float
Your eyes are slow, your eyes are tired
So place...

You are the horse that I'll never ride
You are the horse that I'll never ride
I waste my time, I won't get it back
Hole in my pride
You are the horse that I'll never ride

You are the horse that I'll never ride
You are the horse that I'll never ride
I waste my time, I won't get it back
Hole in my pride
You are the horse that I'll never ride
