"Pine"

Shine in a boat or hide in a hollow of tree
And paint my knees with a silver paint or dip my head
into leaves
Watch my relief and my stress through the pictures of
hills
I saw it's effect is simple, I saw it's effect is keen

Take me to the high tree, her sadness will stay near
So alone in the middle of night I saw her,
So alone in the middle of night I saw her home
in the middle of night I saw her home
I saw her here

Warm frozen hands by the fire in the shelter of twigs
The river glow is so beauty at night it makes my heart
beats
Watch my relief and my stress through the pictures of
hills
I saw it's effect is beauty, I saw it's effect is clean

Take me to the high tree, her sadness will stay near
So alone in the middle of night I saw her,
So alone in the middle of night I saw her home
in the middle of night I saw her home
I saw her here
