It's an excitement for sure  
You've got something  
With a special smile  
You are somewhere  
No one knows this place  
No one knows this place

They told me that he found a road to young river  
In pants and shoes and overcoat he fell  
Into young river

Don't speak about it  
Just keep it to yourself,  
Keep it, keep it, keep it  
Keep it to yourself

They told me that he found a road to young river  
In pants and shoes and overcoat he fell  
Into young river
