I'm getting tired with the commotion  
You keep on talking but nothing happens  
You've got big plans for your brilliant future  
Where streets are gold paved and you're the man  
The Man

You're the man with the plan it's a brilliant scam  
You're the king in the ring what a terrible thing  
It's a shame that your game didn't work on the kids  
Sing it out everyone we won't do what people say

You had it worked out, oh what a workout  
You had us singing as you were saying:  
This is the future, this is your future!  
And we applaud as you hit the gold paved cement
