Sweet and low and to the point  
You always get your way  
But I've long run out of any  
thoughts and words to fill the space  
And if this is supposed to be something more  
Then kindly explain what all the pain is for

'Cause you wanted it, you wanted it  
Don't lie to me  
Don't act like I wanted it more  
You wanted it, you wanted it  
Don't hide from me  
It's sad that we've settled the score  
Once and for all

And I picture myself up in your face  
And then I picture myself walking away  
But it never seems to go that way  
That's so much easier than what I've got to say  
And if this is supposed to be something more  
Then kindly explain what all the pain is for

'Cause you wanted it, you wanted it  
Don't lie to me  
Don't act like I wanted it more  
You wanted it, you wanted it  
Don't cry to me  
It's sad that we've settled the score  
Once and for --

All you wanted was to wear me out  
Test my strength and prove my doubts  
That's what love's about

You wanted it, you wanted it  
Don't lie to me  
Don't act like I wanted it more  
You wanted it, you wanted it  
Don't cry to me  
It's sad that we've settled the score  
Oooh, it's sad that I evened the score

Once and for all  
Once and for all
