

Mountain Goats, The "Beautiful Gas Mask"

Visit "[Beautiful Gas Mask](#)" on MotoLyrics.com

Come hard through the fog blindfolded and bound
Till we stand at the edge of a hole in the ground
We hold hands and we jump and as we fall we sing
Paupers heralding the walls of the castle going to meet
the king

Never sleep, remember to breathe deep
Never sleep, remember to breathe
Breathe deep

Crash in from deep space shot birds falling fast
Who will be there to catch us in his jaws
When we arrive alive at last?
I can't hear you in the dark
Wish I knew where you'd gone
Know you're there, off in the shadows somewhere
Try to soldier on

Never sleep, remember to breathe deep
Never sleep, remember to breathe
Breathe deep and breathe humbly
Secure your mouthpiece when you can
Toxic shapes adorn the walls
As we rise from our knees
Someone's coming to reward us, you wait and see
Or crush us both like fleas

Never sleep, remember to breathe deep
Never sleep, remember to breathe
Breathe deep
