I caught me a rabbit
To keep me company
And I'm here in my car
And the rabbit's here with me.
Heading out Highway 1,
Respecting out posted speed limits.
And I tried to figure this one out,
But I can't find any feeling in it.

[chorus]
And I'm sick and tired
Of trying to figure out your gestures.
And I'm sick and tired
Of wondering what your presents.
I'm gonna take this rabbit into Malibu,
And he'll chew on sour grass
While I gulp down Dexedrine.

Wind comes through the open window.
I button up my shirt.
And the rabbit's riding shotgun
My teeth hurt.
You sent me a package marked,
"Live animals inside."
And the sun's coming quickly
Above the rising tide.

[chorus]
