Freedom is a dusty road heading to a highway
Californian skyways will lead us where we wanna stay
Suddenly a summer breeze breaks a misty mornin'
There's a new day dawning we'd better be on our way.
So love me love my dog
We've lived the road too long to break up
Love me live my life and travel through this land
I can't leave a friend I promised that before we started
So love me love my dog
If you can't understand then we'll heap up land.
When I leave this town today Lord you know I'll miss
you
Baby I won't kiss you. you'll only make me wanna stay

Though it's hard to say goodbye can't you see it's over
Guess I'm just a loner heading on his way.

I tell you now
Love me love my dog
So love me love my dog
If you can't understand
Then I guess we'll have to move on out up land.

C'mon boy!
