I'm gettin' in to your heart,
I'm gettin' in to your mind.
You better learn from the start
You'll never leave me behind.
My love surrounding you,
My love will be your shield,
Just take me into your heart,
And all will be revealed.

Don't be scared to love me darling,
I won't chain you down you know.
My love sets you free for flying,
Hold me, kiss me, off you go.

I'll stay with you.
I'll stay with you.
I'll stay with you.
I'm gonna stick with you.

I'm gettin' in to your heart,
I'm gettin' in to your mind.
You better learn from the start
You'll never leave me behind.

I was given love like this
It was a gift I pass to you.
You'll be happy when you get it,
I was when I got it too.

I'll stay with you (etc.)

I'm gettin' in to your heart,
I'm gettin' in to your mind.
You better learn from the start
You'll never leave me behind.

I love you baby, baby,
Love you everywhere.
Take me with you when you fly----
