

Vaux "Never Better"

Visit "[Never Better](#)" on MotoLyrics.com

It's not hard, letting go
I gave up long before, i lost it all the other day
The only way i'm, getting by is getting low
I'm unreliable
Is it still worth it [x4]
It never gets better than this (we come crashing)
Never better than this? (we come crashing down)
For as long as you live (we come crashing)
It never gets better than this.
Maybe i said too much
Maybe i pushed too far
Like seeing you wound up, i'm not gonna lie
And giving up is getting old
I'm not invincible
Is it still worth it [x4]
It never gets better than this (we come crashing)
Never better than this? (we come crashing down)
For as long as you live (we come crashing)
It never gets better than this.
Things couldn't get much worse
Good to know, good to know you
Than they are right now
Good to know, good to know you
[x2]
It never gets better than this (we come crashing)
Never better than this? (we come crashing down)
For as long as you live (we come crashing)
It never gets better than this.
