"Night Owls"

Visit "[Night Owls](#)" on MotoLyrics.com

See all the Night Owls when they gather 'neath the
neon lights
They've been sleeping all day long, now they come
alive
See all the Night Owls when they gather, dressed up to
the nines
They're out to party and they'll keep it going 'til the
morning light
Sundown girls are posing coolly, looking so divine
Trying to excite and mustify
Sharing juicy secrets 'bout some man to hypnotise
Merry-making sisters, flashing smiles that hold the
sharpness of a knife
See all the Night Owls when they gather 'neath the
neon lights
They've been sleeping all day long, now they come
alive
See all the Night Owls when they gather, dressed up to
the nines
They're out to party and they'll keep it going 'til the
morning light
Heavy Boys are watching from the corner of their eyes
Talking of some hero's lates crime
Then they leave the circle one by one, once in a while
If you want to keep it going, 'ain't it time that we all had
another line
See all the Night Owls when they gather 'neath the
neon lights
They've been sleeping all day long, now they come
alive
See all the Night Owls when they gather, dressed up to
the nines
They're out to party and they'll keep it going 'til the
morning light
Blue-eyed boy is taking Cinderella for a ride
Promising a glimpse of paradise
, says the spider to the fly

'Til the morning light
