Baby do you wanna
Get a little closer to me
Baby maybe we could make a little hot heavy love
Or I could just hold you tenderly

I know you're shy
But it aint hard to see
That you think I know you know you're thikin'
What could be wrong
If you get a little closer to me

It aint good to bottle up these feelings all inside
So slide on over here I promise I wont bite

Well maybe just a little nibble
If that's what you like

Now I know you know I know that you're a woman
(I'm well aware now baby)
And I know you think I know just what a
Woman like you needs.

I can tell you want to tell me that you want me
(I know you want me honey)
I won't tell nobody tales you can trust me

I know you're lonely
Lonely just like me
So why you leave me lonely sitting way over there
When I'm over here just waiting for you baby
To get a little closer to me

I need you're loving all the time
You give me yours I'll give you mine
Nothing could be so fine
Get a little closer to me

You know the writings on the wall
And all you have to do is fall
Aint gonna hurt at all
Get a little closer to me

I'll show you what these hands are for
And when we're done you'll beg for more
Down on the kitchen floor
Get a little closer to me...
