VERSE 1:

I'd like to stop and thank you for all the pain you've
given, pain you've given me.
I'd like to stop and thank you for all the days you've
taken, away from me.

Pre-Chorus:

Whoa Whoa Whoa.. Whoa Whoa Whoa... Whao Whoa
Whoa.. Whoa Whoa Whoa...

Chorus:

There goes another one, that tried to bring me down.
There goes another song to sing about.
There goes another one, with another broken heart.
There goes another one, Whoa Whoa Whoa Whoa
Whoa.

Verse 2:

There goes another one with another broken heart, it
was broken right from the start. There goes another
one
with another loaded gun, taking down another broken
one.
