Hey, girl, come here, let me talk to you real quick.
And so, I heard IÃ¢â¬â¢m on your side and there will
suck it real slick like
WhatÃ¢â¬â¢s up with you? IÃ¢â¬â¢m Torion. Why
you wanna know whatÃ¢â¬â¢s going on?
All up in my business, tell Ã¢â¬â¢em donÃ¢â¬â¢t
trip, just witness,
And you know IÃ¢â¬â¢m about to change the world,
And I just got to tell you, girl.

Friends, they gonna be all up in our business
Girl, I need to know, are you with it?
No matter what happens, can you hold me down, hold
me down?
Friends, they gonna be all up in our business
Girl, I need to know, are you with it?
No matter what happens, can you hold me down, hold
me down?

I was sitting in the classroom and all can I, I was
thinking about you
But youÃ¢â¬â¢re home, youÃ¢â¬â¢re steady,
asking me questions like what you gonna do, girl
Is it true?
Torion, can we get together? I think I can do better,
Is this gonna last forever?
Forever, and baby, all I got to say
Is you already know the game, so please
donÃ¢â¬â¢t let down.

Friends, donÃ¢â¬â¢t let Ã¢â¬â¢em get up in our
business,
Girl, I need to know, are you with it?
No matter what happens, can you hold me down, hold
me down?
Friends, they gonna be all up in our business,
Girl, I need to know, are you with it?
No matter what happens, can you hold me down, hold
me down?

Wait, let me talk to you, girl,

You need to go and get your girls
I love the way you use to walk with me, talk with me, to
laugh with me.
What's going through your head?
Can't you see that I miss you?
Can't you see that I miss you?
And it's all because of you.

Friends, don't let 'em get up in our
business,
Girl, I need to know, are you with it?
No matter what happens, can you hold me down, hold
me down?
Friends, they gonna be all up in our business,
Girl, I need to know, are you with it?
No matter what happens, can you hold me down, hold
me down?

You gotta promise you'll be honest,
Tell me what you want, what you need, I got it
You know when it's time to see, I can be
Out of drama- struggle.
Is a problem? Imma solve it,
You ain't gonna twit that, text that, call me
I'll be on it, I'll be join it, 'till
it's gone.

It don't matter, it don't matter, girl.
You know you matter most, 'cause
you're my baby.
Don't let them tear us apart,
You know it's gonna be mine, do what we got.

Yeah, yeah, friends.
Girl, I need to know, are you with it?
Girl, I need to know, are you with it?
Girl, I need to know, are you with it, with it?
Girl, I need to know, are you with it, with it?
Girl, I need to know, are you with it, with it?
Girl, I need to know, are you with it, with it?
