You ain't got to front, you know exactly what  
we came to do, came to do,  
I've been waiting here all night, it feels like my  
whole life, just to be with you, be with you,  
You ain't got to front, you know exactly what  
we came to do, came to do,  
I've been waiting here all night, it feels like my  
whole life, just to be with you, be with you.

Hey girl, I know you probably wanna hear it, but  
you're missing me, too  
That's why you call me to kick it, now come on.  
Tonight there ain't no excuses, we're  
about to have fun, so check your mind out of deuces.  
He said how far it? And you know I was gonna pop in  
tonight.  
There is a house party, but it ain't even gonna  
skin jumping until we step up in here like money.

You ain't got to front, you know exactly what  
we came to do, came to do,  
I've been waiting here all night, it feels like my  
whole life, just to be with you, be with you,  
You ain't got to front, you know exactly what  
we came to do, came to do,  
I've been waiting here all night, it feels like my  
whole life, just to be with you, be with you.

Truth be told, you're the reason I even wanna  
be up in this party  
That in them, jeez, got me looking from left to right,  
Because I'm seeing you're  
looking right.

Who that bump in the DJ table got the CD skipping  
I ain't nobody's momma, not  
gonna phone until she's tripping  
No, I ain't tryin' to stop, no  
That shawty left that big strap, chop, chop.

You ain't got to front, you know exactly what

we came to do, came to do,  
IÃ¢â,¬â„¢d been waiting here all night, it feels like my  
whole life, just to be with you, be with you,  
You ainÃ¢â,¬â„¢t got to front, you know exactly what  
we came to do, came to do,  
IÃ¢â,¬â„¢d been waiting here all night, it feels like my  
whole life, just to be with you, be with you.

To the girls standing alone in the world,  
DonÃ¢â,¬â„¢t be scared, get your back up after all,  
I care not, IÃ¢â,¬â„¢ve been thinking about chilling  
with you, oh God.

You ainÃ¢â,¬â„¢t got to front, you know exactly what  
we came to do, came to do,  
IÃ¢â,¬â„¢d been waiting here all night, it feels like my  
whole life, just to be with you, be with you,  
You ainÃ¢â,¬â„¢t got to front, you know exactly what  
we came to do, came to do,  
IÃ¢â,¬â„¢d been waiting here all night, it feels like my  
whole life, just to be with you, be with you.

Climb with me, so climb with me, climb with me  
I wanna be with you, baby.

You ainÃ¢â,¬â„¢t got to front, you know exactly what  
we came to do, came to do,  
IÃ¢â,¬â„¢d been waiting here all night, it feels like my  
whole life, just to be with you, be with youÃ¢â,¬â„¢t!
