There was a girl I knew  
She said she cared about me  
She tried to make my world  
The way she thought it should be  
Yeah we were desperate then  
To have each other to hold  
But love is a long, long road

There were so many times  
I would wake up at noon  
With my head spinning 'round  
I would wait for the moon  
And give her one more chance  
To try and save my soul  
But love is a long, long road

Yeah it was hard to give up  
Some things are hard to let go  
Some things are never enough  
I guess I only can hope  
For maybe one more chance  
To try and save my soul  
But love is a long, long road
