{I'm a little obsessed,
I'm a little obsessed }

This situation blows my mind,
No complication, not this time,
I'm walkin' this path with a bubbly bath,
scented candles to suit the scene,
I'm not afraid to jump right in,
My brain is dead when it comes to sin,
Just send the pace for all that face,
'Cause Baby...

I'm totally, holistically,
so dizzily and socially
connected to all and only you
'Cause

I'm a little obsessed, woah
I'm a little possessed 'cause you're so cool,
certifiably insane, woah,
that's a sars(?) on the edge but that's OK,
I'm a little bit, a little something in between real love
I'm a little obsessed, baby
I'm a little obsessed with you

This medication fades away,
who needs those pills anyway,
I'm feeling fine, somewhat inclined to,
take a nibble on your nose for a while,
You've got the cutest little face,
Even if it now looks out of place,
I hope my roller coaster mouth,
letting all the secrets out,
hasn't put you off,

I'm totally, holistically
So dizzily and Socially
Connected to all and only you
'Cause

I'm a little obsessed, Woah,

I'm a little possessed 'cause you're so cool,
Certifiably insane, Woah,
That's a sage(?) on the edge but that's OK,
I'm a little bit, a little something in between real love,
I'm a little obsessed...

This situation blows my mind,
No complication, not this time,

I'm totally, Holistically
So dizzily and socially,
connected to all and only you
'Cause

I'm a little obsessed, Woah,
I'm a little possessed 'cause you're so cool,
Certifiably insane, Woah,
That's a sage(?) on the edge but that's OK,
I'm a little bit, a little something in between real love,
I'm a little obsessed,

I'm a little obsessed, Woah,
I'm a little possessed 'cause you're so cool,
Certifiably insane, Woah,
That's a sage(?) on the edge but that's OK,
I'm a little bit, a little something in between real love,
I'm a little obsessed baby,
I'm a little obsessed, ooh
