E.Anderl
she lit a fire
burning, dancing around the sun
she left me naked
burning dancing around
dancing around the sun
and when I close my eyes
I try to go away
then I awake and find me
dancing around the sun (2x)
you always keep me dancing
Â´round the sun
there is silence
I am alone again
thinking it over and over again
over and over again
trying to remember
thinking of you again
makes me feel I never stopped
dancing around the sun
IÂ´m in your room again
thought I was far away
now it seems I canÂ´t even move my eyes
