you'll run from the lies you can't help but think of whats
waiting for you
no matter what they tell you
I know that your heart is pure but your judgment is
weak

And since that day you never been on my side
(my side my side)
and thats not the reason I'm swaying from you
from what we could've had

whoa whoa

chapstick covered on the lips now waiting to be kissed
now
who'd think you have it all
chapstick covered on the lips now waiting to be kissed
now
look how far you've come

the tears from your eyes, your make up is running
straight down your face and down onto my chest
I'd never thought we'd get to this point
Never thought we'd make it

And since that day you never been on my side
(my side my side)
and thats just the reason I'm swaying from you
what we could've had

whoa whoa
