It Drives me crazy out of mind every moment every
time

Crazy out of mind Every moment all the time

crazy out of mind every moment every time

Crazy out of mind Every moment all the time

I'm going crazy baby Got me in a twister

Can't keep my mind off of you, can't keep my mind off
of you

I'm going crazy baby Got me in a twister

It's all the things that you do, it's all the things that you
do

If the weather permits I will be here to stay With you in
my arms Everyday When the clouds start to rain, It
won't keep me away Oh no oh no it won't keep me away

Oh yeah, I'm steady now, everything im thinking bout
Come on girl get closer When you got me in the
backseat

Yeah, I'm steady now, everything im thinking bout
Come on girl get closer When you got me in the
backseat
