"Finding My Place"

The burning beat just won't go away
And crowd's hot heat has crept under my skin
We keep on sweating oh we keep on sweating now
Until the rhythm shocks my body
You are You are my love at first site
Let's break it down so we get this started
You are You are my love at first site

Everybody's dancing
Everybody's dancing

We are the piercing sound on the radio dashboard
Turn it up and make the crowd go wild
Raise your drinks and get your girl
With a little clap clap will get this party started
