Maybe I'm scared of leaving
this place called home
maybe I cared for everyone
I have ever known

We all have each other
Some way or another
But the truth is that I imagine no other
Place in the world
That helped me grow up so fast, (I keep telling them)

Uh oh u know, how it all goes down
Don't get me started, I I just can't handle it
Uh oh u know, where I lost my ground
Let's turn the time back and move it on forward again

How can I bare the thought
Of losing you again, (oh it hurts me)
And baby I care even though
I just don't show it, (but you know it)

We all have each other
Some way or another
But the truth is that I imagine no other
Place in the world
That helped me grow up so fast, (I keep telling them)

Maybe you got the wrong guy
I just keep telling them
Maybe you got the wrong guy
I just keep telling them

Uh oh u know, how it all goes down
Don't get me started, I I just can't handle it
Uh oh u know, where I lost my ground
Let's turn the time back and move it on forward again
