[Chorus: Pharoahe Monch + Busta Rhymes]

[Pharoahe Monch]

The next millennium rap now everybody listen

Condition yourself to be knocked out of commission

Watch out! Cause this is a new world transmission

Permission to shine now our time to glisten

[Pharoahe Monch and Busta Rhymes]

The next shit (x16)

[Pharoahe Monch]

Yo yo yo, I scatter data that'll hammer niggas' catamaran then,

Around yaks cop figures like not stranded

The last batter to hit, blast shattered your hit

Smash any splitter or fastball, that'll be it

Didn't figure the ridiculous flow will hit vigorously

Triggerin' a rigorous amount of energy

That'll be definitely needed defeat a foe who retreated

Back, see no need to repeated it

Permission to shine, stop this and rewind that

Back, listen and find Pharoahe Monch, the rhymes phat

You run up on him without a gun I run up on 'em

Excel 'em, sell 'em verbally never seen me comin'

[Chorus]

[Busta Rhymes]

Yo Busta Rhymes, the imperial lyrical you heard

Kill like the one syllable word

The criminal of the lyrical killin' you pitiful

Niggas, leavin' you in a critical, destroyin' ya mineral

Back when I was scramblin' in front of the deli
Live on a celly, which was in a street rippin' on shiny for
really
Now every milli-second I try to reckon with niggas for
jackin'
Like they really thuggin' I ain't even checkin'
How niggas could try to act like they really them foul
niggas
Fuckin' with now niggas, better bow niggas
For moderation niggas going to hibernation
While I legally chase the situation of hyper nation
Now that we credible I require a busy schedule
Collectin' federals being put on a pedestal
While we clean and we keep on your feedin', you know
the meanin'
Start to holla and screamin' and teach you how to stop
bleedin'

[Chorus]

[Pharoahe Monch]

10Â|pack a stadium and let's begin
9Â|new millennium rhymes by design now
8Â|get it straight no time to hesitate
7Â|universally bonded with all my present men
6Â|rub on ya titties, guys hold ya dick, yea
5Â|stop holdin' the wall and get live
4Â|yea yea yea 3 come on come on 4 3 2 1
