we both knew this was wrong, but we tried
picture me breaking down, on my hands and knees

yeah, we both knew this was wrong, but we tried
(my promise to you has become)
picture my breaking down under your sheets
(just a bend in the road)

forget this all
or just sing along
cause i've wrote you off
and you've you wrote this down
and my promise is, on bending knees
that this will make you see...this will make you see
this so you never have to know
that im singing alone

we both knew this is wrong
(I will move on)
its the flow of the tide
but we try
(you will always)
its a bend in the road
i think we should both be
(be the one who)
its the lights in the sky
be hiding our eyes
its a movement for lips to collide
(stays the same)
to see the holes we've dug
its a movement for lips to collide
(I will move on)
To see the world fall down
its a movement for lips to collide
(you will always)
To see us both in love
its a movement for lips to collide
(be the one who)
To see you fall out
its a movement for lips to collide
(stays the same)

To see you fall out

...A promise made, is a promise kept...
