

Vegas Nights "Institution"

Visit "[Institution](#)" on MotoLyrics.com

And I never want to lose my soul
I've made mistakes and yes I know
I remember you from before

Cold of winter biting my skin
Revelations of our sins
The explanations we give

If there's no way out of here
Dont let me die of fear my dear
There's never an easy way
Always a price to pay
One day

I don't want to lose control
I shake and shiver to the bone
There's no escaping the cold

But I haven't had enough, not yet
I'll keep on coming, keep on trying for more

If there's no way out of here
Dont let me die of fear my dear
There's never an easy way
Always a price to pay
One day
