Oh it's not so scary down hear  
Little musty not so scary  
Oh no, what am I gonna do?  
It looks like I'm gonna end up as lion stew

Don't cry, Daniel, fear not, Daniel  
Don't you know you're not alone  
There is One who is watching you  
He listens when you pray

And though it seems  
This time you won't get through  
God has made a way

Even though he still didn't know what to expect  
Daniel felt better  
When he remembered that God was taking care of him  
Even in the lion's den
