"Same Changes"

Visit "[Same Changes](#)" on MotoLyrics.com

the camera angles and the name campaigns
the stare cuts and the latest extremes
the way we sell ourselves the way we spend our greed
how long it takes hear our dreams

circle of change the world around you
the same changes
hold on to the voice inside you
the same changes

the borders and the flags how far our guns can shoot
fascist slogans and the movie of the week
popular opinions cars that drive you mad
what they pass assassins and a lucky streak

how much time is wasted how much time is left
what to censor
what to read
how hot the sun burns
what does love require
how we run from the things we need
