"Fire And Water"

Visit "[Fire And Water](#)" on MotoLyrics.com

Every single day
I got a heartache comin' my way
I don't want to say goodbye
But look at the tears you made me cry
I don't wanna say goodbye, mama
But look at the way you made me cry, yeah
Every way this dies
You've got a heart that's made of ice
That's why I know
(fire and water has to make you their daughter)
You've got what it takes
To make a poor man heart break
A poor man heart break
Woman you turn me on
As quick as a flash, your love is gone
Baby I'm gonna leave you now
Ah, I got to make you believe somehow
That fire and water have to make you their daughter
You got what it takes
To make a poor man heart break
A poor man heart break

Instrumental Ah!

AAAWWWWOOOO!

I don't wanna say goodbye

But look at the way you made me cry, yeah

Every way this dies

You gotta heart that's made of ice

That's why I know fire and water has to make you
their daughter

You got what it takes

To make a grown man heart break

Oh, water, water has to make you their daughter

AAWW, you got what it takes

To make a poor man heart break, Aww!

(Water, that water, has to make you their daughter

You got what it takes

To make a poor man heart break.....
