When you try to say all you feel deep inside

You want to tell the world how it feels slowly dying.  
You sing the saddest songs 'cause it's all you can write

Hiding in that place where you play them all night.

You've got to face your life  
start all over again

You've got to face your life from beginning to end

You've got to - face  
face - face your life.  
And if you think you're falling down

Well  
you can still turn back around.

You've got to face your life  
start all over again.  
Face your life when you're out on the edge

You've got to - face  
face - face your life.  
Ooh  
don't  
don't let me down in silence!

Your heart feels like a sword is cutting it out

You hit out every chord on the piano and shout.  
She never even heard your voice in the crowd

You want to love that girl but you just don't know how.

You review every scene ypu work out in your mind

Flashback on a dream wner the hero is blind.  
Making it so real  
you can't tell day from night

When all you want to be is the light in her eyes.

You've got to face your life  
start all over again

...

You've got to face your life  
start all over again

Face your life  
from beginning to end  
face your life.  
And if you think you're falling down

.

Well  
you can still turn back around.

You've got to face your life  
start all over again

Face your life from beginning to end

Face your life when you're out on the edge.  
Don't let me down in silence  
silence  
silence!
