Tonight we'll start a fire  
You know we'll let it burn  
Somehow we'll over come it  
I'll never know  
I can't stop thinking about it  
It's eating away inside  
Believe me when I tell you  
It's mine  
You now know  
I decided long ago  
I was gonna be with you  
and into the night we both will go  
And find our own way

A thousand lights above us  
We're gonna let them shine  
What comes first tomorrow  
Or maybe the next life  
Cos you live for the weekend  
And I live forever  
And you say you don't need it  
I don't know  
You don't know  
I decided long ago  
I was gonna be with you  
and into the night we both will go  
And find our own way

I decided long ago  
I was gonna be with you  
and into the night we both will go  
And find our own way  
Do you know  
Do you know  
Whoa woe

Do you know  
Do you know  
Whoa woe  
I'm taking my things  
Leaving behind

All of the pain you've caused me  
And I never want you  
Back in my life  
Back in my life  
In my life  
I can't stop thinking about it  
It's eating away inside  
Believe me when I tell you  
It's mine  
You now know  
I decided long ago  
I was gonna be with you  
and into the night we both will go  
And find our own way  
I decided long ago  
I was gonna be with you  
and into the night we both will go  
And find our own way

Yeah, we will find our own way

Do you know  
Do you know  
Whoa woe
