People try to judge me,
They will never know me,
Try to see within me,
All I know is all I own...

Everybody's moving,
Get the feeling groovin',
Send The Rhythm through me,
What will be this plan?

Well I don't know what I'm gonna be,
Everybody wants me to be free,
Everybody get down to the beat,
Well I don't know what I'm gonna be,
Everybody wants me to be free,
Everybody get down to the beat...

The the the the the truth truth truth truth truth is is is no
words,
The the the the the truth truth truth truth truth is is is no
words...

You care. You know, what it's for,
You know you care, you know, what it's for,
You know you care, you know, what it's for,
You know you care, you know,
Now n' again, fuck it yeah.

Well I've been around some time,
And I don't know what I'm doing,
Noddin' their heads, n' their feet on the floor,
And now everybody's prayin'...

Well I don't know what I'm gonna be,
Everybody wants me to be free,
Everybody get down to the beat,
Well I don't know what I'm gonna be,
Everybody wants me to be free,
Everybody get down to the beat...

The the the the the truth truth truth truth truth is is is no

words,
The the the the the truth truth truth truth truth is is is no
words

You care, You know, what it's for,
You know you care, you know, what it's for,
You know you care, you know, what it's for,
You know you care, you know,
Diddly dum dum dum here I come

I don't know what I'm gonna find
Won't somebody help me?
I don't know what I'm gonna find
Won't somebody help me?
I don't know what I'm gonna find
Won't somebody help me?
I don't know what I'm gonna find
Won't somebody help me?

You know you care, you know, what it's for,
You know you care, you know, what it's for,
You know you care, you know, what it's for,
You know you care, you know,
Niddly now now Fuck it yeah.
